July 2017

Guidance and Counseling

PROFILE

As a motivated graduate seeking a career in web development, I possess strong organization and time management skills. I am a hardworking and friendly individual who is eager to support and learn from development teams. I am also proficient in planning and creating visuals for websites and mobile interfaces using Figma, HTML, and CSS, and have experience with intuitive UI controls through programming and design. In addition, to develop well-designed web apps, I continually utilize awareness of user psychology throughout the design proces.
